SAFETY CAUTION

If you choose to use the iQ Podz while driving, please observe and abide by all applicable driving laws.

Please keep all the equipment and accessories away from small children or animals as the small pieces may cause choking if swallowed.

Please refrain from using the product in extreme temperature environments (*Below - 20 degrees centigrade or above 45 degrees centigrade*)

Extreme temperatures can reduce the charging capacity of the device, and shorten the battery life.

Exposure to moisture can severely damage the product. Submersion of the product in liquid will likely cause irreversible damage to the Podz.

Please use caution when listening to media at high volume for long periods of time as it can cause damage to your hearing over time.

OPERATION INSTRUCTIONS

Pairing the iQ Podz with a smart device

Step 1: Press **R** and **L** iQ Podz buttons at the same time and hold for 2 seconds to turn on.

Step 2: Wait for the voice prompt **"power on, bluetooth mode."**

Step 3: Go to the Bluetooth connection list on your smart phone or tablet and search for **"IQPODZ05"** Bluetooth name on your device. Click to connect.
(If the iQ Podz do not connect right away, wait 5 seconds and then reconnect.)

OPERATION INSTRUCTIONS

Power on: Press the **R** and **L** Podz buttons at the same time for 2 seconds. An alternating red and blue light will start flashing on the Podz followed by a **"Power On"** message through the headphones.

Power off: Press the **R** and/or **L** Podz buttons and hold for 4-5 seconds to Power Off both iQ Podz.

MUSIC CONTROLS

Music play/pause: Press the **R** or **L** Podz button to play or pause music or videos.

Music previous/next: To go to the next song press the **R** Podz button two times. To go to the previous song press the **L** Podz button two times.

OPERATION INSTRUCTIONS

PHONE CALLS

Answer call: During incoming call press  Podz button to answer a call.

End call: During a call press  Podz button to end a call.

Refuse call: During an incoming call press and hold the  Podz button for 1 second to refuse the call.

Important Note: Phone, audio and microphone are transmitted through the right pod only. This prevents delay, echo and feedback when talking on the phone.

OPERATION INSTRUCTIONS

Low battery alarm: When the headset power is less than 10%, it flashes a red light and reminds you to charge your iQ Podz.

Low battery power down: When the iQ Podz run out of battery power they will automatically shut off.

Automatic connection: After the initial set up and connection the iQ Podz will automatically connect to your device next time you turn them on. *(Please ensure the Bluetooth is active on your device for automatic connection.)*

Restore factory settings: Power on the **R** and **L** Podz, then press and hold both Podz for 8 seconds until you hear two beeps.

Important Note: If you are experiencing any connectivity problems, please restore factory settings by resetting the Podz.

OPERATION INSTRUCTIONS

Charging the iQ Podz

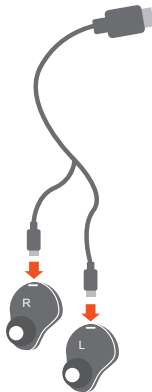

To recharge the iQ Podz, plug the included dual micro USB cable into each of the Podz charging ports located at the top of each Podz. Then connect to a USB power supply, such as a wall adapter or Computer USB port. *(To access the USB charging port you must first remove the rubber protective cover.)*
