## SAFETY CAUTION

If you choose to use the iQ Podz while driving, please observe and abide by all applicable driving laws.

Please keep all the equipment and accessories away from small children or animals as the small pieces may cause choking if swallowed.

Please refrain from using the product in extreme temperature environments (*Below - 20 degrees centigrade or above 45 degrees centigrade*)

Extreme temperatures can reduce the charging capacity of the device, and shorten the battery life.

Exposure to heavy rainfall or other moisture can severely damage the product. Submersion of the product in liquid will likely cause irreversible damage to the Podz.

Please use caution when listening to media at high volume for long periods of time as it can cause damage to your hearing over time.

Recharge your headphones 4X  
with the Charging/Storage Case

# OPERATION INSTRUCTIONS

## Initial Set Up / Pairing:

**Step 1:** Press main button on the **R** and **L** iQ Podz for 2-3 seconds.

**Step 2:** Once the iQ Podz are turned wait for the prompt **"Left Channel /Right Channel,"** this confirms that the Podz are synced.

**Step 3:** Go to the Bluetooth connection list on your smart phone or tablet and search for **"IQPODZ30"** Bluetooth name on your device. Click to connect.

Once connected a blue and red light will start to flash, indicating that the Podz are connected to the Bluetooth device.

# OPERATION INSTRUCTIONS

**Auto Power On:** Once the Podz are removed from the case they will automatically power on, a blue light on each Podz will flash 3 times and the connection process will start.

**Note:** *The case must be charged in order for the Podz to automatically power on. If the case is not charged the Podz can be manually turned on.*

**Manual Power On:** Press and hold the main button on the **R** and **L** Podz at the same time for 3 seconds to power on.

**Auto Power Off:** Place the Podz back into the case and close the lid. Once you have placed it in the case the Podz will automatically power off within 15 seconds providing that the case is charged.

**Manual Power Off:** Press and hold the main button on the **R** and **L** Podz at the same time for 4 seconds to power off.

# OPERATION INSTRUCTIONS

**Music Play/Pause:** Press the main button on the **R** or **L** Podz to play/pause the music or videos.

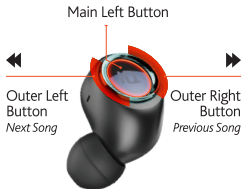

## Music Next/Previous

**(Left Podz Only):** Press the Outer Left Button on the **L** Podz to go to next song. Press the Outer Right Button on the **L** Podz to go to previous song.

## Volume Up/Down

**(Right Podz Only):** Press the Outer Right Button on the **R** Podz to turn the volume up. Press the Outer Left Button on the **R** Podz to turn the volume down.

### Left Podz

### Right Podz

# OPERATION INSTRUCTIONS

**Answer Call:** During incoming call press **R** or **L** Podz button to answer a call.

**End Call:** During a call press **R** or **L** Podz button to end a call.

**Refuse Call:** During an incoming call double click **R** or **L** Podz button to refuse the call.

**Google Assistant/Siri:** Double click the main button on either Podz to activate Google Assistant/Siri voice feature. Wait 2 seconds until you hear the prompt before giving a voice command.

**Note:** *This features is only available with Apple and Andriod phones that have Google Assistant/Siri capabilities.*

# OPERATION INSTRUCTIONS

**Automatic Connection:** After the initial set up and connection the iQ Podz will automatically connect to your device next time you turn them on.

**Note:** *Please ensure the Bluetooth is active on your device for automatic connection.*

**Low Battery Warning:** When the battery level is 20% or lower the indicator light will flash red every 5 seconds. There will also be a voice prompt every 5 minutes indicating low battery level.

**Automatic Low Battery Shut Off:** When battery level is fully depleted the iQ Podz will automatically shut off.

# OPERATION INSTRUCTIONS

## Charging the iQ Podz

Put **R** and **L** iQ Podz into the charging case and close the lid to start the charging process. The charging headset light will glow red until fully charged. Once fully charged the red light will turn off.

## Case power indicator

....	<b>100% Power</b>	...	<b>75% Power</b>
..	<b>50% Power</b>	•	<b>25% Power</b>

The case holds 400mAh of battery power which can charge the iQ Podz up to 3 times from no battery power before the case has to be recharged.

To recharge the case, plug the included micro USB cable into the case and connect to a USB power supply, such as a wall adapter or Computer USB port.
